

Greetings from the International Journal of Advances in Microwave Technology!!

Call for papers

The manuscripts are invited for the possible publication in the **Volume 7, Issue 1**, February 2022 of [IJAMT](http://www.ijamt.com).

International Journal of Advances in Microwave Technology (ISSN: 2456-4346)		
The International Journal of Advances in Microwave Technology (IJAMT) is a double-blind peer-review, open access journal that publishes original research articles as well as review articles in all areas of Microwaves including microwave passive and active devices, microwave solid state devices, metamaterials, microwave antennas, microwave tubes, high power microwave sources and systems, microwave communication, wave propagation, millimeter- and sub-millimeter-wave techniques, radar engineering, radio astronomy, remote sensing and imaging applications. Specifically, the journal focuses on analysis, design, development, measurement, and testing of microwave components and devices, high power microwave sources and system, the interaction of electromagnetic waves with discrete, continuous, and biological media.
